

COMPANY PROFILE

InvoiceHub

The all-in-one invoicing and ERP platform engineered for ambitious businesses — billing, inventory, accounting, ledgers and payroll, in one elegant and secure system.

A modern platform for modern business

InvoiceHub is a Forgewick product — a single, beautifully designed platform that lets a business run its entire commercial operation from one place. From a one-person shop issuing its first branded invoice to a multi-branch enterprise managing purchasing, receivables and payroll, InvoiceHub scales with ambition.

We built it on a simple conviction: world-class business software should not be a privilege of large corporations. It should be fast, secure, affordable and genuinely delightful to use — for everyone.

Our Mission

To give every business the tools big companies take for granted — in one secure platform they can afford and love using.

Our Vision

To become the platform businesses open first every morning — across the region and beyond.

Everything a business needs, unified

InvoiceHub brings together the tools businesses usually stitch across spreadsheets, registers and disconnected apps — into one secure, elegant system.

Invoicing & Inventory

- Branded, professional invoices, quotations and receipts
- Real-time inventory and stock tracking in any unit
- One-tap WhatsApp sharing and multi-branch operations

Accounting & ERP

- Customer and supplier ledgers (udhaar) with WhatsApp statements
- Purchasing, expenses, cash book, Profit & Loss and tax summaries
- Stock valuation, reorder intelligence and payments

People & Control

- HR and payroll — employees, salaries and pay runs
- Granular staff roles and permissions
- A live command-centre dashboard for the whole business

Software businesses are proud to run on

- **Built for the region.** Udhaar ledgers, WhatsApp-native sharing and pricing that respects local budgets.
- **Secure by design.** Bank-grade encryption and complete tenant isolation — your data is yours alone.
- **Elegant and effortless.** Software people genuinely enjoy opening every day.
- **Always evolving.** Continuously improved alongside the businesses we serve.

Trust & Security

Your data is encrypted in transit and at rest, every business is completely isolated from every other, and access is governed by strict role-based controls. A full Data Security & Encryption document is available at invoicehub.forgewick.com/security.
